Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **CDPH Statewide Travel Advisory**

As of 06/15/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information: [CDC Travel Guidelines](#)

WEATHER KEY POINTS

12/07/21 - 12/13/21

Tuesday-Monday

- Scattered showers will impact southern California into early afternoon, with light rainfall amounts.
- A stronger storm system will bring more widespread rain and higher elevation snow to much of the state Wednesday night through early Friday, particularly across central and southern California.
 - Snow levels will fall to either side of 2,000 feet, with impacts to travel across the higher elevations likely.
 - Most of this precipitation will be beneficial, though some minor localized burn scar impacts could occur across central California.
- Another series of storms appears on track to impact much of northern and possibly central California Sunday through early next week, potentially spreading into southern California as well into next week. At this time, the exact details remain uncertain but locally heavy precipitation looks increasingly likely across northern California.
